# About dschool World of Learning

## Dear Educators and Parents,

For more than 11 years, dSchool world of learning has set up standards in making available to low level schools, premium educational products for use at home and in school.

We believe that "If a child can't learn the way we teach, maybe we should teach the way they learn" Ignacio Estrada. According to a study by our educational experts, children are more likely to succeed in learning when their families actively support them. It is no exaggeration to say that how well children learn to read affects directly not only how successful they are in school but how well they do throughout their lives.

Many times, children need additional time to practice lessons that are introduced in the classroom. This extra practice time at home can make the difference between a confident student and a nervous learner.

## Why dSchool World of Learning System? – DISCOVER+LEARN+EXCEL

Educational games is a revolutionary way to transform math, reading, science, critical thinking skills and character lessons into adventures! In each of the class-based programs, students are invited to embark on a journey through – a personalized 3D environment that evolves as a student progresses. Along the way, students master dozens of skills based on International educational standards. Designed by educators and built with cutting edge interactive technology. The games makes it easier for parents to be involved in education of their children.

## Why our solution works

### High-quality education aligned to standards

The program ensure that high-quality academic assessments, accountability systems, teacher preparation and training, curriculum, and instructional materials aligned with challenging World class academic standards so students, teachers, parents, and administrators can measure progress against common expectation for student academic achievement.

### Closing the achievement gap

The learning system uses state-of-the-art technology to assist in closing the achievement gap between high- and low-performing children.

### Parental Involvement

Affording parents substantial and meaningful opportunities to participate in the education of their children. Trusted by over 30 million parents, the JumpStart brand has been a leader in the educational software market for over 23 years. Activities encourage parent-child interaction. The lively adventures encourage children to talk about their play and

### Why every school and parents with children from ages 2-18 should have a copy

- Focus on 21st century skills, content knowledge and expertise.
- Build understanding across and among academic subjects as well as 21st century interdisciplinary themes
- Emphasize deep understanding rather than shallow knowledge
- Allow for multiple measures of mastery
- Support a balance of assessments, including high-quality standardized testing along with effective classroom formative and summative assessments
- Emphasize useful feedback on student performance that is embedded into everyday learning
- Require a balance of technology-enhanced, formative and summative assessments that measure student mastery of 21st century skills
- Enable development of portfolios of student work that demonstrate mastery of 21st century skills to educators and prospective employers

Our programs are trusted by over 40 million parents and educators Worldwide , have won over 400 global education awards and some of the schools in Kenya using our programs are on our website [www.dschoool.co.ke](http://www.dschoool.co.ke) As the team leader os dschool World of Learning, I call upon all to join us see a great future for all Africa kids.

To get a copy for your home use or sign up as a reseller or an agent please contact us. Looking forward to be your long-term edutainment valued partner

# MESSAGE FROM: ALINDA WARE

## Education Director - ADLA

Dear Educators,

### Readiness for Reading and Mathematics

Children learn to crawl, walk and talk when they are physically and developmentally ready. As adults we encourage them and provide the environment for them to grow and develop. We know if our children have no disabling health issues; have an adequate environment, skills, and encouragement, they will succeed in crawling, walking and talking. We do not try to force them, punish them or react negatively to their development. We know some children will take longer to 'bloom' but we are patient.

However, we seem to change our approach with children learning to read, write and do mathematics. We enter our children into school and formal learning by chronological age rather than developmental age, consequently, we must know what skills we need to develop in our children before we can expect them to learn and to achieve at class level in 'reading, writing and arithmetic'.

And what skills do children need? Research shows the following are major skills children need to know before they can to read, write and understand basic mathematics adequately.

## Reading and Writing Skills

*The child:*

- can rhyme words (run, bun, sun, fun)
- knows letter sounds
- knows letter names
- writes small letters
- writes capital letters
- knows how books work
- puts sounds together and makes a word (ss aa tt – sat)
- can clap syllables (happy – claps twice)

## Math

*The child:*

- can identify some shapes (circle, square and triangle)
- understands empty and full
- Recognizes and matches small quantities to the number words 1, 2, 3 etc.)
- shows interest in numbers and recites some number words
- can count with help
- can distinguish between some, all and parts of a whole

## Mathematical Concepts

*The child:*

- compares the size of groups of objects, using words such as more, less and same as
- arranges objects in size order (small to big or big to small)
- can use comparison words (bigger, smaller, and heavier)
- understands concepts of none, some, all, more than, less than)
- can identify and draw a square, circle and triangle
- can correctly count one to ten objects
- understands that the final number counted represents the total number of objects in a set

We are here in Africa to ensure that No Child is Left Behind in Learning.

Thanks

Alinda Ware  
Education Director

## 3 Reading & Mathematics

### Reading/Language Arts

The Reading Blaster Series motivates students to master language arts skills in reading, writing, and spelling. The series challenges students to use problem-solving skills in age-appropriate, multi-level reading and writing activities that teach punctuation, creative writing, vocabulary development, proper grammar, and more. Help your students achieve reading and writing proficiency.

### Introduce essential pre-reading skills

progressively challenging activities in phonics, the alphabet, and word knowledge introduce critical pre-reading skills. Eight read-along storybooks and problem-solving challenges develop basic literacy and the thinking skills needed for reading comprehension.

### Key Standards

- Vocabulary Development
- Reading-Decoding, Phonics, Reading Process
- Reading Comprehension and Evaluation
- Language Expressions and Mechanics
- Listening, Speaking, Viewing

### Curriculum Skills

- Distinguish letters, sounds, and words
- Recognize upper and lower case letters
- Become familiar with the alphabet
- Expand vocabulary
- Build a foundation for comprehension

### Sharpen math skills with engaging number challenges

Eight absorbing activities with five levels of content introduce addition, subtraction, and sorting of simple and complex number sets. Over 350 lessons and 1,000 problems and puzzles build operations and data skills, while exploration activities build visual and logical thinking skills. Progress reports and printable activities are included.

### Key Standards

- Number Sense, Concepts, and Operations
- Fractions, Decimals, Ratios, Percents, Exponential
- Addition, Subtraction, Multiplication, Division
- Geometry and Spatial Sense
- Data Interpretation, Probability

### Curriculum Skills

- Complete number patterns up to 9,999
- Identify simple and equivalent fractions
  - Read and interpret charts and bar graphs
  - Sort simple and complex sets
  - Manipulate shapes to solve tangram puzzles
  - Develop problem-solving strategies

## 4 Cross Curriculum

### **JumpStart World Preschool Ages 2-4 & JumpStart World Kindergarten (KICD Approved)**

This year, teach your preschoolers that learning can be an adventure! JumpStart World® of Learning: Preschool and Kindergarten invites each student to become Ultimate Jumpscout Leader.

As students explore the magical, musical worlds and master the educational games, new areas, adventures and lessons unlock. This unique format not only keeps each student engaged, but also ensures that each student will be studying at the appropriate pace and level. Plus, JumpStart World of Learning makes managing your classroom simple. The included Classroom Management system allows you to review detailed information on each child's or the entire class' progress easily.

*Teaches over 200 skills for Preschool and Kindergarten including:*

#### **Math:**

- Number Recognition
- Quantities
- Number Recognition
- Sorting
- Shapes
- Graphs
- Counting
- Measurements
- Fractions
- Comparisons

#### **Reading:**

- Recognition
- Rhyming
- Phonics
- Visual Discrimination
- Rhyming
- Phonics
- Letters
- Sounds
- Listening Comprehension
- Story Sequencing
- Vocabulary
- Sentence Building

#### **Critical Thinking:**

- Following Directions
- Problem Solving
- Patterns
- Sorting
- Using a Calendar
- Telling Time
- Spatial Awareness
- Visual Discrimination
- Directions
- Using a Calendar
- Solving Puzzles

#### **Social Skills:**

- Community Awareness
- Healthy Food Choices
- Exercises
- Teamwork
- Friendship

#### **Other Hero Shield virtues include:**

1) Training

2) Challenge

3) Strength

4) Encouragement

5) Nature

Culture

1) Wisdom

2) Loyalty

3) Responsibility

4) Courage

5) Vision

6) True Hero

## 5 Cross Curriculum

*This year, teach your 1st graders that learning can be an adventure!*

### **JumpStart World® of Learning**

1st Grade invites each student to rescue JumpStart Town from trouble – a challenge that requires mastery of more than 280 essential 1st grade skills based on national and state standards.

As students progress through the educational games and missions in JumpStart Town, new lands, adventures and lessons unlock. This unique format not only keeps each student engaged, but also ensures that each student will be studying at the appropriate pace and level. Plus, JumpStart World of Learning makes managing your classroom simple. The included Classroom Management system allows you to review detailed information on each child's or the entire class' progress easily.

*Teaches over 280 skills for 1st grade including:*

#### **Math:**

- Comparisons
- Measurements
- Graphs
- Place Value
- Addition
- Subtraction
- Value of Money
- Fractions

#### **Reading:**

- Story Sequencing
- Rhyming
- Sight Words
- Punctuation
- Contractions

- Parts of Speech
- Plurals
- Synonyms
- Antonyms

#### **Critical Thinking:**

- Spatial Awareness
- Visual Discrimination
- Directions
- Using a Calendar
- Solving Puzzles
- Telling Time
- Patterns

#### **Social Skills:**

- Friendship
- Teamwork
- Responsibility

*Other Hero Shield virtues include:*

1) Knowledge

2) Dedication

3) Friendship

4) Inspiration

5) Community

6) Sharing

7) Caring

8) Truth

9) Exploring

10) Motivation

11) Thoughtfulness

12) Key to the town

## 6 Cross Curriculum

*This year, teach your 2nd graders that learning can be an adventure! JumpStart World® of Learning:*

2nd Grade invites each student to solve the mystery of the vanishing color – a challenge that requires mastery of more than 300 essential 2nd grade skills based on national and state standards.

As students progress through the educational games and missions in JumpStart Town, new lands, adventures and lessons unlock. This unique format not only keeps each student engaged, but also ensures that each student will be studying at the appropriate pace and level. Plus, JumpStart World of Learning makes managing your classroom simple. The included Classroom Management system allows you to review detailed information on each child's or the entire class' progress easily.

*Teaches over 280 skills for 1st grade including:*

### **Math:**

- Comparisons
- Place Value
- Addition
- Subtraction
- Multiplication
- Division
- Basic Equations
- Basic Geometry

### **Reading:**

- Compound Words
- Context Clues
- Parts of Speech
- Main Idea
- Irregular Vowels
- Punctuation
- Rhyming

### **Critical Thinking:**

- Spatial Awareness
- Visual Discrimination
- Directions
- Using a Calendar
- Solving Puzzles
- Telling Time
- Patterns

### **Social Skills:**

- Friendship
- Teamwork
- Responsibility

*Other Hero Shield virtues include:*

1) Training

2) Challenge

3) Strengths

4) Encouragement

5) Nature

6) Culture

1) Wisdom

2) Loyalty

3) Responsibility

4) Courage

5) Vision

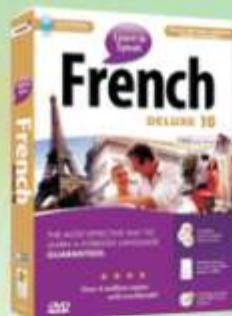

6) True Hero

## 7 E - Languages

Learning to Speak French Deluxe 10 is a fast and effective way to learn French. It has been an all time best selling language software program that is used by millions of people worldwide. It includes three audio CDs, a printed reference book and audio lessons for your Ipod or Mp3 player.

Learning to Speak English Deluxe 10 is a fast and effective way to learn English. It has been an all time best selling language software program that is used by millions of people worldwide. It includes three audio CDs, a printed reference book and audio lessons for your Ipod or Mp3 player.

Learning to Speak German Deluxe 10 is a fast and effective way to learn German. It has been an all time best selling language software program that is used by millions of people worldwide. It includes three audio CDs, a printed reference book and audio lessons for your Ipod or Mp3 player.
